### WORDPRESS/SHOPIFY WEBSITES + PLUGIN DEVELOPER + TEAM LEAD | LEED [SEP - 2022 – STILL]

Leed is a product/project based company in Canada, Germany and Pakistan. My **key responsibilities** are working on custom websites and plugins that are in WordPress, HTML/CSS bootstrap and shopify. And in this company I worked firstly on custom registration for a UK based Driving Course registration website, which also contains payment with paypal and secondly I developed a custom dashboard in HTML/CSS bootstrap for a Chabot. And I also made a custom plugin that is for send OTP verification code on mobile phone through twilio messaging service for user mobile phone validation that functionality on frontend in popup and also this plugin has settings in admin side in which twilio API keys settings and numbers list with status of verified or unverified. And also work on custom stripe plugin in which a shortcode with custom attributes that user can change according to their need and this shortcode create button for stripe payment and if user need more than one payment button then he/she can just create shortcode again with change attributes and new button ready for work. And I also worked on a shopify site according to figma design.

With this I worked on many **WordPress sites** from scratch and also fixed bugs of many websites in this company.

### WORDPRESS PLUGIN DEVELOPER | Eniture (US based) [DEC-2021 – AUG-2022]

Eniture is a product based company in which there are more than 25 plugins that are based on shipping prices calculation according to carries in the US and they have more than 1600 customers. **My key responsibilities** are the implementation of new features in plugins with the team as directed by the company and also handle customer queries that are relevant to plugins and sometimes customize plugins according to customer demands.

Plugins are available on [WordPress Plugin Directory](#).

## LARAVEL + WORDPRESS THEME + PLUGIN DEVELOPER + TEAM LEAD | CODISTAN [JAN-2021–NOV-2021]

**My key responsibilities** are working on **Laravel projects** in which I make notifications (Text messages(Twilio Messaging service), Mobile Push Notifications(One Signal), Web Push Notifications(Pusher)) for a project and also develop API's for that project.

And also worked on **WordPress plugins** from scratch in which firstly I make plugin that is for filtering shop manager WooCommerce orders as according to their specific areas and second plugin is for changing all WooCommerce products prices from GBP to PKR as according to GBP rate. Thirdly, I make a plugin to send messages to customers when they order from WooCommerce site.

With this I worked on custom **WordPress sites** from bug fixing to developing custom functionality for these sites in which mostly are theme and plugin custom changes.

## LARAVEL + WORDPRESS FRONTEND + PLUGIN DEVELOPER | MINDWHIZ [AUG-2019–DEC-2020]

**My key responsibilities** are working on **Laravel projects** in which I developed more than 100 mobile application API's from scratch with frontend dashboard in HTML, CSS and bootstrap.

Also worked on **WordPress plugins** from scratch in which I developed Quotation plugin for booking in which user enter start, end location, select booking type and also select no of rooms then on the basis of rate that settle in admin setting of plugin calculate quotation and this quotation calculate distance between location on the basis of MapBox distance API and the dropdown of locations also comes from MapBox places API.

And the second plugin I developed is the basic pin marker to location on earth map on the basis of the tab of location clicked with marker information.

I also developed and managed **WordPress sites** frontend in which portfolio, ecommerce and blogs websites from scratch and also scrap websites for the company.

## WORDPRESS WEBSITE DEVELOPER | B4U GROUP [FEB-2019 – JULY-2019]

**My key responsibilities** are the working on **WordPress sites** frontend in which mostly included portfolio, ecommerce and blog sites. I developed more than 40 sites in that company.
